

Clinical Supervision Resources

The [APA Guidelines for Clinical Supervision in Health Service Psychology](#) describe practices in seven domains for psychologists who supervise trainees or students. The guidelines provide information in the following domains:

1. Supervisor competence
2. Diversity
3. Supervisory relationships
4. Professional behavior and upholding ethical standards
5. Providing feedback and assessment and evaluation
6. Professional competence/performance
7. Adhering to ethical and legal/regulatory guidelines.

The APA's Guidelines on Trauma Competencies were created to guide education and training within the US and psychologists' self-monitoring. The guidelines consist of five broad trauma competencies and nine cross-cutting competencies. The trauma guidelines can serve as a foundation for training a trauma-informed mental health workforce. American Psychological Association. (2015). Guidelines on Trauma Competencies for Education and Training. Retrieved from: <http://www.apa.org/ed/resources/trauma-competencies-training.pdf>

Center for Health Impact

The Center for Health Impact (CHI) is a Massachusetts non-profit organization that helps organizations and communities to develop sustainable organizational systems, stronger leaders and enhanced team capacity for promoting health and well-being. CHI offers several professional development opportunities and/or resources including:

- Community Health Worker Core Competency Course: [Community Health Workers \(CHWs\) - Center for Health Impact](#)
- Successful Supervision with Community Health Workers (CHW) Workshop: [Successful Supervision with Community Health Workers \(centerforhealthimpact.org\)](#)
- Successful Supervision with Community Health Workers Toolkit [successful-supervision-with-chws-toolkit.pdf \(centerforhealthimpact.org\)](#)

Substance Abuse Mental Health Services Administration (SAMHSA) Treatment Improvement Protocols (TIPS)

SAMHSA TIPSs include tools and training materials for training for treating substance use. Part 1 of TIP 52 is for clinical supervisors and includes information about clinical supervision in substance abuse treatment and includes vignettes with scenarios that may occur during supervision. Part 2 is an implementation guide for program administrators and includes

iSPARK 7/1/2024

information about implementing clinical supervision and developing a clinical supervision model. Part 3 has literature that addresses both clinical and administrative concerns.

SAMHSA Technical Assistance Publications (TAPs)

SAMHSA TAPs provide practical guidance and information regarding the delivery of substance use treatment services. TAP 21A describes competencies for effective supervision in substance use disorder treatment. It has step-by-step guidance for implementing comprehensive supervisory training and workforce development. Information in TAP 21A may be useful for clinical supervision more broadly.

The National Council for Mental Wellbeing

The National Council for Mental Wellbeing developed a resource guide designed to assist community behavioral health providers and CCBHCs prepare for state certification. The resource guide has reference materials and practical guidance for clinics to understand and prepare for certification. The resource guide was designed for CCBHC grantees who are not already state certified, CCBHC grantees or community behavioral health providers who want to implement the CCBHC model.
